“If you’re going to look at Paragon on top of all the clients that we have, it’s the opportunities for growth, and being able to basically steer your own ship to where you want it to be, and they have definitely allowed the opportunities for me to do that.”

“I came from a small company background, I did not want to get lost within a big company. So my focus was very selective, I was looking for a firm that has the small company culture but that also has the big company opportunities, and Paragon was just the right mix.”

Anurita Singh
Senior Business Analyst

“Paragon is not a place where you have to check in and check out from nine to five. It’s not a place where you have to talk a certain way to management. Paragon is a company where you can come in and collaborate, where you have leadership that wants to back you and support you.”

Ty Molchany

“I really enjoy working at Paragon because of the people; because of the knowledge and the expertise they have, and everyday I am able to learn something new.”
