

Paragon Solutions: Delivering a Better Way to Do Business

With today's global market volatility and increased regulatory scrutiny, investing in technologies to improve business processes and raise enterprise transparency is vital to market sustainability and competitiveness. In a recent survey of CIOs ranking Top 10 business and technology priorities, improving business processes and reducing enterprise costs ranked first and second. But in the short term, CIOs are asked to do more for the enterprise with fewer resources.

Paragon Solutions assists its clients in acting on priorities that raise enterprise effectiveness by utilizing enabling technologies to ensure compliance, optimize business processes, and integrate and disseminate information across the enterprise. Our Competencies support initiatives that are relevant to business and technology executives today:

- ▶ Records Management & Compliance
- ▶ Collaboration
- ▶ Image Capture & Workflow
- ▶ Service Oriented Architecture
- ▶ Enterprise Performance Management
- ▶ Dynamic Customer Communications

Whether your objective is to automate processes to better meet customer needs, cut costs by improving a business unit's efficiency and productivity, or implement solutions to use and share information better, Paragon will partner with your firm to provide the technological expertise needed to accomplish your goals.
